Subject: In support of HB5225

Honorable Members of the Judiciary Committee,

I am writing to express my support for HB5225 and its amendments which would repeal Michigans outdated and unnecessary Permit to Purchase law. Not only is this law an unconstitutional infringement on my right to keep and bear arms, but it wastes taxpayer dollars and takes the valuable time of our law enforcement officers away from their primary tasks. I hope the committee will choose to pass this legislation on for consideration by the full legislature.

Sincerely,
Derek Johnson
